

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

THIS BOOK, with the list of the battles, skirmishes and engagements of the war with the States of the North and South, from 1861 to 1865, is intended for the convenient use of those who took a part in those bloody battles. It shows the number and names of the Generals, as well as those of the Lieutenant-Generals, and the States from which they were selected.

It also gives the number of the Brigadier-Generals, and the States from which they were selected. It gives the number of battles and skirmishes; where fought, and their date as recorded in Washington, all of which are arranged alphabetically, with the States also so arranged.

It shows by name that there were fought from 1861 to 1865, sixteen hundred and eighteen battles and skirmishes, and there were in all eighteen hundred and eighty-two battles fought, but the names of some could not be gotten.

There were only eleven States which seceded from the Union, and yet there were twenty-two States and Territories, with the District of Columbia, in which battles were fought.

Every soldier who fought in the war with the States should from this record book note the engagements in which he took part.

In after years it will be a happy reflection when he can revert to those days in which he served his country.

Many of the soldiers whose evening shades of life are growing long are having their army records written up that they may be handed down to future generations, which will be esteemed more highly than great riches.

GEN. LEE'S FAREWELL TO HIS ARMY.

HEADQUARTERS ARMY OF NORTHERN VA.,

April 10, 1865.

After four years of arduous service, marked by unsurpassed courage and fortitude, the Army of Northern Virginia has been compelled to yield to overwhelming numbers and resources. I need not tell the survivors of so many hard fought battles, who have remained steadfast to the last, that I have consented to this result from no distrust of them, but, feeling that valor and devotion could accomplish nothing that could compensate for the loss that would have attended the continuation of the contest, I have determined to avoid the useless sacrifice of those whose past services have endeared them to their countrymen.

By the terms of the agreement officers and men can return to their homes, and remain there until exchanged. You will take with you the satisfaction that proceeds from the consciousness of duty faithfully performed; and I earnestly pray that a merciful God will extend to you his blessing and protection.

With an increasing admiration of your constancy and devotion to your country and a grateful remembrance of your kind and generous consideration of myself, I bid you an affectionate farewell.

R. E. LEE, General.

The above records were gotten up by the Confederate Diploma Company, of 626 East Broad street, Richmond, Va. It is a beautiful design 22x30, and is surrounded by the principal Confederate leaders, such as Lee, Jackson, Forrest, Price, Hampton, Maury and others.

Every soldier should have his record artistically written by this Company, which makes a beautiful adornment for the parlor. A great many old soldiers are having this done that they may hand it down to posterity, that the future generations may know of their gallant deeds done from 1861 to 1865.

All who desire to have this done can do so by addressing the Confederate Diploma Company, 626 East Broad street, Richmond, Va.
